

I AM CAYA 540.

PRIVACY WITH STYLE.

- Enclosures create retreats for meetings or relaxed breaks
- Choice of smooth backrest or stylish stitching
- Clear lines

Inviting seating surfaces, firm yet slightly harder combination upholstery and trendy rounded edges. The upholstered furniture is in tune with the spirit of the times. The enclosure ensures privacy during short meetings or offers a place to retreat for a break in between. The backrest can be added with a stapled look as an eye-catcher. For a simpler look, there is a smooth version.
